FEDERAL PARTNERSHIP

Urban Waters Partnership Artist-in-Residence Program

Are you passionate about art and water?

Join us for an exciting opportunity to be part of our Artist-in-Residence Program, a collaboration between EPA, the Urban Waters Partnership, and the National Endowment for the Arts. This 18-month program will commence in Fall 2024, offering a selected artist (or artists) a unique platform to work with the community, showcase their talents, and highlight our urban waterways through art.
